

Curriculum Vitae – Lea Kreyenbaum

ABOUT ME

Experienced Research Assistant with an MSc in Global Health, specialising in environmental epidemiology. Strong interest in understanding how environmental factors influence planetary health and in translating epidemiological evidence into preventive action. Motivated to further develop quantitative skills in environmental modelling and the study of complex climate-related health risks.

PERSONAL

Name:	Lea Kreyenbaum
Address:	Landvetter, Sweden
Date of Birth:	11.05.2000
Telephone:	+49 157 32593656
Email:	lea.kreyenbaum@gmail.com

WORK EXPERIENCE

09/2026 – Present: Research Assistant

Karolinska Institutet, Sweden

- Grant Writing: Contributed to a grant proposal, leading the literature review and embedding the research idea within its broader conceptual context, while drafting substantial sections of the proposal text.
- Administrative & Organisational Support: Supported the development of teaching materials, assisted with grant application documentation, and contributed to manuscript revisions.

08/2025 – 04/2026: Research Assistant

University of Gothenburg, Sweden

- Climate-Health Modelling: Conducted climate-health analyses using longitudinal cohort data and contributed to a related DHS/NASA study building on my MSc thesis; advised colleagues on data harmonisation and DLNM modelling in R.
- Maternal and neonatal health research: Contributed to manuscript drafting and revision, with six papers currently under review.
- Research coordination: Supported grant development, student supervision, and interdisciplinary research activities.

06/2025 – 09/2025: Sustainability Ambassadors Global Exchange (SAGE) program

Global Program (Hybrid: Germany & India)

- Disease surveillance analysis: Assessed Dengue Fever surveillance systems across South Asia within the *Clean Healthy Cities* project.
- Co-creation workshops: Refined research questions and priorities with local stakeholders and policymakers to ensure translational impact.
- International collaboration: Co-produced interdisciplinary outputs and presented findings at the SAGE Showcase.

07/2024 – 01/2025: Research Internship – Maternal and Child Health

World Health Organization, remote from Sweden

- Scientific writing: Contributed to a manuscript about Skilled Health Personnel in Nepal, now published in *Nature Health*.
- Project coordination: Supported communication and documentation across international partners.

11/2024 – 01/2025: Research Internship – Heat Exposure and Maternal Mental Health

University of Gothenburg, Sweden

- Systematic evidence reviews: Conducted systematic reviews on climate-related health impacts in maternal populations.
- Grant proposal development: Supported research proposal and documentation tasks.

09/2022 – 12/2022: Internship in the Department for *Environmental Health und Sustainable Development*

Caribbean Public Health Agency (CARPHA), Saint Lucia

- Air-quality and health communication: Developed learning materials and presented evidence at regional workshops.
- Climate-health evidence synthesis: Conducted literature research on climate impacts and health inequalities for Small Island Developing States.

EDUCATION

08/2023 – 06/2025: Master of Medical Science in Global Health

University of Gothenburg, Sweden

- Major: Advanced Biostatistics and Epidemiology

10/2019 – 08/2023: Bachelor of Science in International Health Sciences

Fulda University of Applied Sciences, Germany

- Major: Health Promotion

09/2021 – 02/2022: Semester Abroad

Zürich University of Applied Sciences, Switzerland

- Major: Health Promotion and Prevention

COMPETENCIES & SKILLS

Technical & Data Skills:

- Epidemiology and biostatistics; longitudinal modelling, exposure-response modelling (e.g., DLNMs)
- Climate-health data integration (NASA, DHS, cohort)
- Data management, harmonisation, and quality control
- Software programs and languages: STATA, R, GeoDa, LaTeX

Project & Research Management:

- Research coordination across multi-country and interdisciplinary teams
- Grant proposal development; student supervision and mentoring
- Workshop organization, stakeholder communication, and collaborative project workflows

Scientific Communication:

- Manuscript preparation and revision
- Systematic Reviews; ethics applications
- Academic and conference presentations

Personal & Interpersonal Skills:

- Intercultural collaboration; teamwork in international settings
- Adaptability, initiative, and analytical problem-solving
- Strong organisational and communication skills

Languages:

- German (native), English (fluent), Swedish (intermediate), French (beginner)

Correlation between heat exposure and perinatal depression – A spatial case-crossover study from Bangladesh, Lesotho, Mozambique, and Nepal. *The Science of the Total Environment*, 1022, 181601. <https://doi.org/10.1016/j.scitotenv.2026.181601>.

Commentaries & Editorials

Kc, A., & **Kreyenbaum, L.** (2025). Global call to understand intersectionality between heat exposure and perinatal mental health. *Maternal Health, Neonatology and Perinatology*, 11(1), 6. <https://doi.org/10.1186/s40748-025-00206-x>.

WORKSHOP & CONFERENCE CONTRIBUTIONS

09/2026: CLARA Summer School Climate Change and Health

Prague, Czechia

- Participated in an intensive summer school on climate and health research, covering climate epidemiology, climate data processing, and climate modelling; presented original research at the poster session and contributed to the expert workshop on Cascading Impacts of Heat Waves.

10/2025: Connecting Health and Climate Change #ENBEL2025

Tallinn, Estonia

- I presented my master thesis about the “Correlation between Heat Exposure and Perinatal Depression: Evidence from four Low-and Middle-Income Countries”.

10/2022: Caribbean Workshop on Air Quality and Health

Castries, St. Lucia

- I presented on the topic of “Climate Change, Indoor Air Quality and Health” at a regional workshop, representing the Caribbean Public Health Agency.

TEACHING AND SUPERVISION

08/2025 – 06/2026: Master Thesis Co-Supervision

University of Gothenburg, Sweden

- “Respiratory Distress among Neonates and Support Availability” – Maria Meleshko
- “Management and Treatment of Newborns with Infections” – Ellen Andersson
- “Perceived Barriers and Facilitators of Kangaroo Mother Care” – Tilda Svensson
- “Delayed Hospital Arrival and Neonatal Resuscitation” – Henrik Albertsson
- “Association between women with preeclampsia and Apgar score” – Alva Eriksson
- “Antenatal Care and Diabetes in Relation to Adverse Pregnancy Outcomes” – Katrin Norberg
- “Antibiotic Use in Neonates Admitted to Intensive Care and Outcomes” – Zakarias Eriksson
- “Risk factors for neonatal sepsis in Pokhara, Nepal” – Ella Rønning
- “Maternal Diabetes and Neonatal Outcomes in Pokhara, Nepal” – Alva Toftgård
- “Postpartum Hemorrhage in Nepal” – Paulina Blomgren
- “Maternal Depression and Infant Child Developmental Outcomes” – Schae Alexandra Scott
- “Heat Exposure and Perinatal Anxiety” – Alhassan Mohammed

10/2022 – 02/2023: Teaching Assistant for “Evidence-based Decision-Making in Medicine”

Fulda University of Applied Sciences, Germany

- I have helped students formulate appropriate research questions, carry out systematic literature reviews, and assess the quality of randomised controlled trials and systematic reviews, using internationally standardized protocols.
